

“I believe that the Wedding Consultant Certification Institute can guide its students with information and resources necessary to turn them into successful Wedding Consultants. I have had the pleasure of being instructed by Rhonda Allen, who has trained me to become the professional Wedding Consultant that I endeavored to be. She has been a great mentor who has given me the fundamental skills and training necessary to competently provide my clients with the professionalism they desire and deserve. I am very grateful for my connection with the Wedding Consultant Certification Institute and I feel that because of my association with them, my wedding consulting business has been established with a stronger foundation.”
